

Health & Safety (H&S) Policy Croydon Community Energy Ltd. (CCE)

Introduction

The CCE Board of Directors (“the Board”) has overall responsibility for health and safety in the organisation, and for ensuring that it fulfils all its legal responsibilities. The Board recognises that it is the duty of directors and volunteers to uphold this policy and for the Board to provide the necessary funds and resources to put it into practice.

The CCE is committed to ensuring that all its activities are safe and it will do whatever it can to provide for the health, safety and welfare of all volunteers, members and visitors ensuring that risks to volunteers, members and visitors are minimised at all times.

It will observe the Health and Safety at Work Act 1974 (“HASAWA”) and all relevant regulations and codes of practice made under it.

This policy will be reviewed annually by the Board of Directors.

1. The CCE H&S Director Responsibilities

The Board member responsible for the implementation and monitoring of health and safety policies and recommending changes where necessary is Connie Duxbury.

All accidents or unsafe incidents will be investigated by the **CCE H&S Director** on behalf of the Board as soon as possible and then be reported at the next available CCE weekly meeting.

The **CCE H&S Director** is responsible for:

- Assessing the risk to the health and safety of volunteers, members and visitors and identifying what measures are needed to comply with its health and safety obligations;
- Ensuring that venues or vehicles used for trips are safe and without risk to health including safe ways of entering and leaving;
- Ensuring that equipment is safe and well maintained;
- Providing information, instruction, training and supervision to volunteers in safe working methods and procedures as required;
- Encouraging volunteers and members to co-operate in ensuring safe and healthy conditions and systems by effective joint consultation;
- Establishing emergency procedures as required.

2. Volunteer Responsibilities

All CCE Volunteers will ensure that:

- They are aware of the contents of this safety policy;
- They comply with this policy;

- They take care of themselves and others who may be affected by their actions or omissions;
- They will report all accidents, or unsafe situations, and any near misses (things which could have led to an accident), to the CCE H&S Director or another Board member at once;
- They record accidents or near misses at work in the CCE Accident Book stored in at the registered company address;
- They are aware of all fire procedures for the area in which they are working;
- If they identify anything which they think could be in any way unsafe, they will report it.

3. Risk Assessments

The **CCE H&S Director** will ensure that all premises and tasks are assessed in line with the current relevant legislation. Assessments will be repeated when there is a:

- trip or event to organise;
- change in legislation;
- change of premises;
- significant change in work carried out;
- transfer to new technology;

or any other reason which makes the original assessment not valid.

4. Training

To comply with legislation and to promote the health, safety and welfare of volunteers, health and safety training will be provided as follows:

- at inductions;
- on the introduction of new technology;
- when changes are made to venues;
- when training needs are identified during risk assessments.

5. Resolving Health and Safety Problems

Any volunteer with a health and safety concern must first tell the **CCE H&S Director**.

If, after investigation, the problem is not corrected in a reasonable time, or the **CCE H&S Director** decides that no action is required but the volunteer is not satisfied with this, the volunteer may then refer the matter to the CCE Chair. This must be in writing.

If the volunteer is still dissatisfied, the matter will be entered on the agenda for the next meeting of the Board.

Policy Creation and Review Dates

Date of policy creation: 7th February 2022

Date policy reviewed: 31st January 2023

Date that next review is due: 31st January 2024

Date policy reviewed: 31st January 2024

Date that next review is due: 31st January 2025

Date policy reviewed:

Risk Assessment to be completed before each external site visit or work away from the usual place.

What are the hazards	Who might be harmed and how	What are we already doing	What further action is necessary	Action by whom	Action by when
